System-Wide Requirements Specification

1. Introduction

This project is a software example from the Software Engineering II discipline in Faculdade Senac Porto Alegre, referring to the first semester of 2016. The software and all the stakeholders are fictional.

2. System-Wide Functional Requirements

In order to download and access the downloaded files history among other features, the user must be logged in.

3. System Qualities

This section contains the Usability (3.1), Reliability (3.2), Performance (3.3), and Supportability (3.4) subsections.

3.1 Usability

If it's being used on machines working in Windows Operation System, the system must follow orientations as detailed in the Microsoft Human Oriented Guidelines documents.

3.2 Reliability

The website must be hosted in a server that provides support for the possibility of multiple accesses or multiple downloads at the same time to prevent errors or website failure.

3.3 Performance

The user will be presented a intuitive, easy to learn and user-friendly interface, making it easier for new users to perform their desired actions in the website environment.

3.4 Supportability

Undefined.

4. System Interfaces

4.1 User Interfaces

4.1.1 Look & Feel

Must follow orientations as detailed in the Microsoft Human Oriented Guidelines.

4.1.2 Layout and Navigation Requirements

Must follow orientations as detailed in the Microsoft Human Oriented Guidelines.

4.1.3 Consistency

Undefined.

Supporting Requirements Specification	Date: <27/JUN/16>

4.1.4 User Personalization & Customization Requirements

Undefined.

4.2 Interfaces to External Systems or Devices

4.2.1 Software Interfaces

Undefined.

4.2.2 Hardware Interfaces

Undefined.

4.2.3 Communications Interfaces

Undefined.

5. Business Rules

5.1 <Rule class name>

5.1.1 <Rule name and ID>

Undefined.

6. System Constraints

7. System Compliance

7.1 Licensing Requirements

Undefined.

7.2 Legal, Copyright, and Other Notices

Undefined.

7.3 Applicable Standards

Undefined.

8. System Documentation

Undefined.
